DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-23 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Gerard'134, JP'939 or WO'049.

See USP'134, column 1, lines 62 through column 3, line 10, column 3, lines 60 through column 6, line 30, claims and examples; JP'939, paragraphs 0008 - 00025, 00038-0049, claims; WO'049, page 2, line 30 through page 3, line 9, page 4, line 19 through page 7, line 7 (cited in European Search Report). Please note that when carbon nanotube is places in the polymer matrix such nanotube is in fact coated.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1794

4. Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, it is not clear what is the claimed structure. Is a nanotube double coated ? as claim suggest by " Coated carbon nanotubes coated "

The amendments and remarks filled by applicants in their last response have been fully considered. The rejections based on double patenting have been withdrawn, however, claims remain unpatentable in view of the new grounds of rejections.
